Summer Intern Spotlight

We are pleased to announce Sanoë K. Burgess as our 2020 summer intern.

Since 2011, Hau'oli Mau Loa Foundation has offered paid summer internships to young adults interested in organized philanthropy and the nonprofit sector in Hawai'i. This year is no different. Even though COVID-19 has changed the way we work, it hasn't changed our desire to cultivate our future generation.

Home Sweet Home

A dedication ceremony was held on June 26, 2020, for 10 families in Phase I of the three-phase homeownership project, Pu'u'alalā Village in Pepe'ekeo on Hawai'i Island. The ceremony marked the completion of 10 months of these families working together every weekend to build their homes.

He Lono Moku – The Challenge is Here

The State of the Environment Report

Hau'oli Mau Loa Foundation has been an affiliate member of the Hawai'i Environmental Funders Group (EFG) since the inception of the group in 2009. Recently, the EFG announced the release of **He Lono Moku – “The State of the Environment” report for 2019–2020**. The third report of its kind, this current version has been two years in the making.

The report aims to provide a snapshot of priority issues critical to the protection of Hawai'i's environment and the self-sufficiency of its people—from highlighting approaches that are making a difference, to identifying opportunities that will sustain our unique island way of life for generations to come.
